Alison | November 2020 – January 2021

WORK SUMMARY

Jan 2023 – Present

Fullstack Developer

Lifen Creatives

- Design, develop and maintain websites for clients
- Perform regular maintenance to ensure sites remain secure, up-to-date, and functional
- Interact with clients to understand their requirements, discuss project details and provide updates
- Overcome arising technical challenges and problem-solving
- Conduct testing and debugging to identify and fix any issues or errors
- Keep accurate and organized documentation for projects

Oct 2021 – Sep 2022	**Network Operations Center Monitoring**

Webacle Technologies

- Monitor the network performance and availability
- Install, configure and maintaining networking accessories
- Troubleshoot and resolve the reported or potential network issues
- Maintain accurate and up-to-date documentation of the network
- Provide technical support to users experiencing issues with the network
- Perform system updates and maintenance to ensure the network is running smoothly
- Optimize server capacity and performance
- Develop data security and backup procedures

June 2018 – Aug 2018	**IT Intern**

Mungania Tea Factory Limited

- Use the EWS (Electronic Weighing Solution) technology for tea collection at the tea buying centres
- Join the newly acquired, formatted or repaired workstations to the KTDA company domain.
- Install company legacy softwares like Microsoft Enterprise 2006
- Participate in hardware repair and maintenance of PC's, thermal printers and weigh scales
- Print tea growers' payslips using the Epson dot matrix printer
- Write cash requests for needful devices e.g. a 24 UTP port DLink switch

PASSION PROJECTS

NyumbaHub MERN Application

NyumbaHub is a vacant houses finding service based in Kenya. With a React frontend, the project serves the house properties data from MongoDB database using the Node/Express.js API hosted as a serverless function. Check the frontend https://nyumbahub.vercel.app and the API https://nyumbahub.netlify.app parts of the application.
